1. Introduction

Cirque Corporation ("the Company") is committed to maintaining a secure workforce and ensuring that all employees and contractors meet appropriate standards of trustworthiness and competence.

2. Purpose

This policy establishes requirements for background checks and hiring procedures to verify the identity, qualifications, and suitability of individuals before granting access to company information systems and sensitive data.

3. Scope

This policy applies to all employees, contractors, temporary staff, and third-party personnel who require access to Cirque systems or handle sensitive company information.

4. Background Check Requirements

Prior to employment or contract engagement, the following checks shall be conducted:

- Identity verification using government-issued identification
- Employment history verification for the past 5 years
- Education and professional certification verification
- Criminal background check as permitted by applicable law
- Reference checks from previous employers

- Credit checks for positions with financial responsibilities (where legally permitted)

5. Hiring Process

All hiring decisions must include:

- Job description defining required skills and security responsibilities
- Interview process assessing technical competence and cultural fit
- Completion of all required background checks before offer acceptance
- Documented approval from hiring manager and HR
- Signed offer letter including security and confidentiality obligations

6. International Considerations

For international hires, background checks shall comply with local laws and regulations while maintaining equivalent security standards. Alternative verification methods may be used where background checks are restricted by law.

7. Ongoing Monitoring

For positions with elevated security responsibilities, periodic background re-checks may be conducted every 3-5 years or when there is cause for concern.

8. Responsibilities

- HR Manager: Coordinate background checks and maintain records
- Hiring Managers: Define job requirements and security needs
- Legal: Ensure compliance with applicable employment laws

9. Policy Review

This policy shall be reviewed annually and updated as needed to reflect changes in risk profile, legal requirements, or business operations.
