

Cirque Corporation

Contract and Agreement Management Policy

Document ID: IS-CIRQ-P-030-G

Category: Legal & Compliance

Division: Policy

Type: Global

Version: 1.0

Effective Date: March 2026

Review Date: March 2027

Approved By: CEO, General Counsel

Generated: March 02, 2026

1. Introduction

Cirque Corporation relies on contracts and agreements to define commitments, responsibilities, and security requirements with customers, vendors, and partners.

2. Purpose

This policy establishes requirements for contracts and agreements to ensure appropriate data security, privacy, and compliance commitments are clearly defined and enforceable.

3. Scope

This policy applies to all contracts, service agreements, statements of work, and other binding agreements entered into by Cirque Corporation.

4. Security Requirements in Contracts

All contracts involving access to Cirque systems or data must include:

- Data security and confidentiality obligations
- Access control and authentication requirements
- Incident notification and reporting requirements
- Data protection and privacy commitments
- Compliance with applicable laws and regulations
- Audit rights and security assessment provisions

- Data retention and deletion requirements
- Liability and indemnification clauses

5. Customer Contracts

Customer agreements shall define:

- Service level commitments
- Data ownership and usage rights
- Security controls and certifications (SOC 2, ISO 27001, etc.)
- Data breach notification procedures
- Customer rights to audit
- Data portability and deletion rights

6. Vendor and Supplier Contracts

Vendor agreements shall require:

- Compliance with Cirque security policies
- Background checks for personnel with data access
- Confidentiality and non-disclosure obligations
- Security incident reporting
- Right to audit vendor security controls
- Subcontractor management requirements
- Insurance coverage for data breaches

7. Privacy Requirements

Contracts involving personal data must address:

- Legal basis for data processing
- Data subject rights (access, deletion, portability)
- International data transfer mechanisms
- Data protection impact assessments
- Compliance with GDPR, CCPA, and other privacy laws

8. Contract Review and Approval

All contracts must be reviewed and approved by:

- Legal counsel (for legal compliance)

- IT/Security (for security requirements)
- Finance (for financial terms)
- Authorized signatory (for final approval)

9. Contract Repository

All executed contracts shall be maintained in a secure, centralized repository with appropriate access controls and retention schedules.

10. Contract Monitoring

Contract owners shall monitor compliance with security commitments and report any breaches or issues to management.
