## Data Management Policy

**Document ID:** IS-CIRQ-P-031-G

**Category:** Data Governance

**Division:** Policy

**Type:** Global

**Version:** 1.0

**Effective Date:** March 2026

**Review Date:** March 2027

**Approved By:** CTO, DPO

**Generated:** March 02, 2026

### 1. Introduction

Effective data management is critical to Cirque Corporation's operations, security, and compliance obligations.

### 2. Purpose

This policy establishes requirements for managing information throughout its lifecycle, including creation, storage, usage, sharing, archival, and destruction.

### 3. Scope

This policy applies to all information created, received, processed, or stored by Cirque Corporation, regardless of format (electronic, paper, or other media).

### 4. Data Lifecycle Management

All data shall be managed through its complete lifecycle:

- **Creation:** Data created or received through authorized processes
- **Classification:** Labeled according to Data Classification Policy
- **Storage:** Stored securely based on classification level
- **Usage:** Accessed only by authorized personnel for legitimate purposes
- **Sharing:** Shared only when authorized and with appropriate protections
- **Archival:** Retained according to legal and business requirements

- Destruction: Securely disposed of when no longer needed

## **5. Data Collection**

Data collection must be:

- Limited to what is necessary for defined business purposes
- Transparent to data subjects
- Lawful and compliant with privacy regulations
- Documented with clear purpose and legal basis

## **6. Data Quality**

Data owners are responsible for ensuring:

- Accuracy and completeness of data
- Regular review and correction of errors
- Timely updates when information changes
- Validation of data inputs where feasible

## **7. Data Storage**

Data must be stored:

- On approved systems and platforms
- With encryption for sensitive data
- With appropriate access controls
- With regular backups for critical data
- In compliance with data residency requirements

## **8. Data Sharing**

Data may be shared when:

- Authorized by data owner or policy
- Necessary for legitimate business purposes
- Protected with appropriate security controls (encryption, secure transfer)
- Governed by appropriate agreements (NDAs, DPAs)
- Compliant with privacy regulations and data subject rights

## **9. Data Ownership**

Each category of data shall have a designated data owner responsible for:

- Defining access requirements
- Approving data sharing
- Ensuring data quality
- Compliance with policies

## **10. Personal Data Processing**

Processing of personal data must comply with applicable privacy laws (GDPR, CCPA, etc.) and include:

- Lawful basis for processing
- Privacy notices to data subjects
- Mechanisms for data subject rights
- Data protection impact assessments for high-risk processing
